GTMAnatomy.

Your brand. Your context. Your AI.

AI INFRASTRUCTURE FOR GO-TO-MARKET TEAMS

Still doing random acts of AI?

There are no shortcuts to an AI-native growth team, just like there are no shortcuts to a brand with authority. AI only scales what you feed it, which means a strong go-to-market foundation is required.

GTM Anatomy helps you build (or iterate on) that foundation and aligns your team on it, encoding the fundamentals into your AI, and keeping your AI learning over time. **AI infrastructure you own.**

OFFERINGS

Four ways to work with GTM Anatomy

Start anywhere: each one is complete on its own, and everything we build transfers to your team.

98% of marketing teams are using AI

10% are seeing "transformational" integration

SOURCE · BCG SURVEY

ANATOMY SCAN — $5,000

A two-week diagnostic of your go-to-market foundations and your AI readiness. You leave with foundations your team agrees on and a roadmap you can run with or without us.

About two weeks · The fee credits into the build if you leverage GTM Anatomy for additional services

ANATOMY OS — $25,000

The full build. An AI-native operating system for your go-to-market team, with your context, your standards, and your governance written in. Infrastructure and skills built for your business plus enablement and training for your GTM team to drive adoption.

Three to six weeks · Yours at handover, after enablement

AI SPRINT — STARTS AT $5,000

Scoped project work against your roadmap. Skills and agents shipped into the systems your team already uses, documented and deployed.

Scoped per project · Full transfer at handover

FRACTIONAL PARTNER — PRICE UPON REQUEST

A standing seat in marketing, go-to-market, and GTM engineering. We keep the system current, sequence the work, and support your priorities with an AI-first set of hands.

Ongoing, month to month · Hourly rates for project work

BUILT FOR

GTM teams at B2B technology start-ups and scale-ups.

WHAT IT IS

Infrastructure, services, and/or fractional support.

HOW IT WORKS

01 Align the foundations.

One source of truth across sales, marketing, and product.

02 Encode them once.

Every output carries your differentiators.

03 Keep it learning.

The system updates the foundations as the brand moves.

AI infrastructure unique to your brand, your business, your team.

Book a strategy call: see whether a partnership makes sense. Either way, we both walk away smarter.

Prefer to see the work first? The skills library is free.
